GAS FIRE PIT GUIDE

★ *Light it. Enjoy it. Turn it OFF.* ★

1

OPEN THE LID

Remove the lid.
Make sure nothing is inside
the fire pit.

*No marshmallow
surprises from
the last crew!*

2

TURN ON GAS

Slowly open the
propane tank valve.
(Usually underneath
or behind the unit.)

3

TURN KNOB TO IGNITE

Push and turn
control knob to
"Start / Ignite".

Hold for a
few seconds.

4

LIGHT THE FLAME

Press ignition button
until flame lights.
May take a couple
clicks. ⚡

💡 If it doesn't light:
Turn OFF → wait 5 seconds → try again.

5

ADJUST FLAME

Turn knob
to adjust
flame height.

🔥 Low =
chill vibes

🔥 High =
full campfire
mode!

6

ENJOY

Sit back, relax,
and enjoy the fire!

*Perfect for
sunsets &
cocktails!*

7

TURN OFF (VERY IMPORTANT)

1. Turn control
knob OFF.
2. Turn propane
tank OFF.

Flame should be
fully out.

THIS IS CRITICAL!

8

AFTER USE

✓ Let unit
cool down.

✓ Replace
cover.

*Let's keep it
nice for the
next guest!* ❤️

9

SAFETY FIRST

Never leave
fire unattended.

Keep away from
cushions, furniture,
and anything
flammable.

Do not use in
strong wind.

⚠️ **PLEASE:** ⚠️

- 🔌 TURN GAS OFF AFTER USE
- 🔌 NEVER LEAVE UNATTENDED
- 🔌 KEEP AREA CLEAR

⚓ **THANK YOU!** ⚓
